SCIENTIFIC PROGRAM

About Precision Global Conferences

Precision Global Conferences (PGC) stands as a trusted leader in international scientific and industry event management, with a proven track record of delivering over thirty world-class conferences across premier innovation hubs in the United States, Europe, and Asia — including Singapore, Miami, San Francisco, Boston, Barcelona, Paris, and Thailand. We specialize in creating high-impact platforms that unite life science innovators, leading researchers, distinguished industry experts, and forward-thinking technology companies under one roof.

About Welcome Messages

Good morning,

Welcome to the 2nd Edition of the Public Health and Midwifery World Conference 2026.

It is a privilege to be part of this global community of clinicians, researchers, educators, policymakers, and innovators who have come together with a shared commitment to improving health and shaping a more equitable future.

We are living through a time of extraordinary change. The challenges we face are complex, but so are the opportunities. The future of public health and midwifery will be shaped not by one profession, one country, or one solution, but by what we create together.

At the conference, I invite you to bring your expertise, your curiosity, and your willingness to think differently. Ask questions, challenge assumptions, share your ideas, and make connections.

I hope you leave this conference not only with new knowledge, but with new perspectives, new relationships, and a renewed sense of what is possible.

Welcome to PHMWC 2026. Let us learn, connect, innovate, and build the future together.

Irina Koyfman

Doctor of Nursing Practice, Founder of Affinity Expert, USA

About Welcome Messages

As an Organizing Committee Member (OCM), I take immense pleasure in welcoming you to the 6th Edition of the World Science Conference (WNSC 2026) to be held in Miami, Florida, September 18th – 20th, 2026. The theme of this year's conference is "Nursing Science in Action: Transforming Communities and Healthcare Delivery," which underscores nursing's transformative role in shaping the future of healthcare. I trust and hope that you can connect with your colleagues during this multi-dimensional conference, with both virtual and/or face-to-face interactions. We are enthusiastic about your attendance and participation. Enjoy the conference!

Dr. Daryle Wane

Nurse Consultant, Retired BSN Program Director/Pasco-Hernando State College,
